R.S.L Restricted Substances List

Version 2.0 - last updated 2021

Safety and Quality Commitment

The Purchase Specifications are an integral and substantial part of the CONTRACT FOR THE SUPPLY OF GOODS signed and operating between the PARTIES

Dear Sirs,

the present document indicates the Purchase Specifications that Teddy SpA (defined as the “BUYER” in the Contract) provides its suppliers in relation to the ordered PRODUCTS destined for wholesale and retail distribution within its sales networks. Through the present Purchase Specifications, the BUYER intends to notify its suppliers of the quality and safety standards that they will have to conform to during the production cycle of the PRODUCTS ordered by the BUYER. The SUPPLIER must comply with the laws, regulations and directives that govern the general safety of products, as well as the health and safety of consumers.

The BUYER hereby notifies that the quality and safety standards described in the present Purchase Specifications must be complied with even after washing and even after the PRODUCTS have been worn.

The conformity of the products to the current requirements is accepted only when the reports are issued by laboratories conforming to the EN ISO 17025 standard and following the test methods accredited by the local accreditation body.

As part of the Teddy testing program, the supplier will be asked to perform the tests in the laboratories indicated by Teddy.

It remains your direct responsibility, as SUPPLIER, to disclose, inform and train any factory (including approved subcontractors) and individuals involved in the production of the products ordered by the BUYER in order to guarantee that the finished PRODUCTS fully conform to all quality and safety standards.

RESTRICTED SUBSTANCES LIST

Chemical and safety requirements for garments and accessories

All SUPPLIERS, for all types of products, shall make sure that what they supply, complies with ecological and toxicological requirements and the basic safety requirements of the below TEDDY Restricted Substances List.
